

Natural Resources Conservation Service

Application Ranking Summary

Upper Arkansas - Forestry

Program:	Ranking Date:	Application Number:
Ranking Tool: Upper Arkansas - Forestry		Applicant:
Final Ranking Score:		Address:
Planner:		Telephone:
Farm Location:		

National Priorities Addressed

Issue Questions	Responses
1. Will the treatment you intend to implement using EQIP result in a considerable reduction of non-point source pollution, such as nutrients, sediment, pesticides, excess salinity in impaired watersheds with total maximum daily loads (TMDLs) where available, groundwater contamination or point sources such as contamination from confined animal feeding operations?	Yes <input type="radio"/> or No <input type="radio"/>
2. Will the treatment you intend to implement for water conservation or irrigation efficiency using EQIP result in a considerable reduction in water use?	Yes <input type="radio"/> or No <input type="radio"/>
3. Will the treatment you intend to implement using EQIP result in a considerable reduction of emissions, such as particulate matter, nitrogen oxides (NOx), volatile organic compounds, and ozone precursors and depleters that contribute to air quality impairment violations of National Ambient Air Quality Standards?	Yes <input type="radio"/> or No <input type="radio"/>
4. Will the treatment you intend to implement using EQIP result in a considerable reduction in soil erosion and sedimentation from unacceptable levels on agricultural land?	Yes <input type="radio"/> or No <input type="radio"/>
5. Will the treatment you intend to implement using EQIP result in a considerable increase in the promotion of at-risk species habitat conservation?	Yes <input type="radio"/> or No <input type="radio"/>
6. Will the treatment that you intend to implement using EQIP result in considerable benefits to residue management, nutrient management, air quality management, invasive species management, pollinator habitat, and animal carcass management technology or pest management?	Yes <input type="radio"/> or No <input type="radio"/>
7. Will the treatment that you intend to implement using EQIP result in energy conservation benefits?	Yes <input type="radio"/> or No <input type="radio"/>

State Issues Addressed

Issue Questions	Responses
1. Will the project reduce the amount of nutrients/pesticides/salt/selenium or other pollutants entering ground or surface waters?15 points	Yes <input type="radio"/> or No <input type="radio"/>
2. Will the planned practice(s) promote water conservation on the contracted acres? 15 points	Yes <input type="radio"/> or No <input type="radio"/>
3. Will the project address invasive and/or noxious plants on contracted acres? 10 points	Yes <input type="radio"/> or No <input type="radio"/>
4. Will the project result in an improvement to the existing management system to meet the state AFO/CAFO regulations?10 points	Yes <input type="radio"/> or No <input type="radio"/>
5. Does the project increase the diversity of desirable plants on grazing lands? 10 points	Yes <input type="radio"/> or No <input type="radio"/>
6. Does the project improve the health of riparian and/or wetland areas?	Yes <input type="radio"/> or No <input type="radio"/>
7. Is the proposed project located within the State's NRCS wildlife priority area, and do the planned practices address the habitat needs of the targeted species designated in the wildlife priority area?	Yes <input type="radio"/> or No <input type="radio"/>
8. Will the proposed project reduce field soil loss to below "T" or will the planned practice(s) reduce irrigation induced/streambank erosion?	Yes <input type="radio"/> or No <input type="radio"/>
9. Does the applicant meet one or more of the following conditions: a. Did the applicant successfully complete any past EQIP contract(s) in full compliance; or b. If the applicant has an existing EQIP contract has it been, and is it now, on schedule and in full compliance? IF THIS IS THE APPLICANT'S FIRST APPLICATION, ANSWER,"Yes".	Yes <input type="radio"/> or No <input type="radio"/>
10. Has any portion of the offered acreage been set aside or inventoried by a Cultural Resources Specialist or an Archeologist?	Yes <input type="radio"/> or No <input type="radio"/>
11. Does the proposed project support organic transition (farming operation to be used while transitioning from conventional to organic production)?	Yes <input type="radio"/> or No <input type="radio"/>

Local Issues Addressed

Issue Questions	Responses
1. Has there been a forest management plan developed by qualified forester?	Yes <input type="radio"/> or No <input type="radio"/>
2. Is this application a joint agreement?	Yes <input type="radio"/> or No <input type="radio"/>
3. Is the plan part of an area forest management plan that involves at least two adjacent properties?	Yes <input type="radio"/> or No <input type="radio"/>
4. Is the site assessment score of specific potential environmental benefit >0 but =<5?	Yes <input type="radio"/> or No <input type="radio"/>
5. Is the site assessment score of specific potential environmental benefit >5 but =<10?	Yes <input type="radio"/> or No <input type="radio"/>
6. Is the site assessment score of specific potential environmental benefit >10 but =<15?	Yes <input type="radio"/> or No <input type="radio"/>
7. Is the site assessment score of specific potential environmental benefit >15 but =<20?	Yes <input type="radio"/> or No <input type="radio"/>
8. Is the site assessment score of specific potential environmental benefit >20?	Yes <input type="radio"/> or No <input type="radio"/>
9. Is the planned conservation treatment part of a post-burn recovery effort?	Yes <input type="radio"/> or No <input type="radio"/>
10. Does the planned conservation treatment impact potential burn by the reduction of hazardous fuels for the prevention of wildfires?	Yes <input type="radio"/> or No <input type="radio"/>
11. Is the erosion reduction score for concentrated flow >0 but =<3?	Yes <input type="radio"/> or No <input type="radio"/>
12. Is the erosion reduction score for concentrated flow >3 but =<5?	Yes <input type="radio"/> or No <input type="radio"/>
13. Is the erosion reduction score for concentrated flow >5 but =<10?	Yes <input type="radio"/> or No <input type="radio"/>
14. Is the erosion reduction score for concentrated flow >10 but =<20?	Yes <input type="radio"/> or No <input type="radio"/>
15. Is the erosion reduction score for concentrated flow >20 but =<30?	Yes <input type="radio"/> or No <input type="radio"/>
16. Is the erosion reduction score for concentrated flow >30 but =<40?	Yes <input type="radio"/> or No <input type="radio"/>
17. Does the conservation treatment include the installation of practices that improves grazing rotation with a switchback system?	Yes <input type="radio"/> or No <input type="radio"/>
18. Does the conservation treatment include the installation of practices that improves grazing rotation with a rest-rotation system?	Yes <input type="radio"/> or No <input type="radio"/>
19. Does the conservation treatment include the installation of practices that improves grazing rotation with a deferred rotation system?	Yes <input type="radio"/> or No <input type="radio"/>
20. Does the conservation treatment include the installation of practices that improves grazing rotation with a limited pasture high intensity short duration system?	Yes <input type="radio"/> or No <input type="radio"/>
21. Does the conservation treatment include the installation of practices that improves grazing rotation with a standard pasture high intensity short duration system?	Yes <input type="radio"/> or No <input type="radio"/>
22. Does the conservation treatment include modification of grazing duration to allow each pasture to be grazed during growing season for 15 days or less each time AND each pasture grazed at a different time from year to year?	Yes <input type="radio"/> or No <input type="radio"/>
23. Does the conservation treatment include modification of grazing duration such that a scheduled rotation is used that will allow the grazing duration in each pasture to be greater than 15 days but less than or equal to 30 days AND each pasture is grazed at a different time from year to year?	Yes <input type="radio"/> or No <input type="radio"/>
24. Will grazing land monitoring be conducted by any one of the following methods (photo points, forage analysis, permanent transects)?	Yes <input type="radio"/> or No <input type="radio"/>
25. Is the Ground Cover Improvement, Drought Recovery Restoration and Noxious Weed Control Scorecard Index =<5 but >0?	Yes <input type="radio"/> or No <input type="radio"/>
26. 26. Is the Ground Cover Improvement, Drought Recovery Restoration and Noxious Weed Control Scorecard Index >5 but =<10? (8 points)	Yes <input type="radio"/> or No <input type="radio"/>
27. Is the Ground Cover Improvement, Drought Recovery Restoration and Noxious Weed Control Scorecard Index >10 but =<15?	Yes <input type="radio"/> or No <input type="radio"/>
28. Is the Ground Cover Improvement, Drought Recovery Restoration and Noxious Weed Control Scorecard Index >15 but =<20?	Yes <input type="radio"/> or No <input type="radio"/>
29. Is the Ground Cover Improvement, Drought Recovery Restoration and Noxious Weed Control Scorecard Index >20?	Yes <input type="radio"/> or No <input type="radio"/>
30. Does the conservation treatment include the installation of practices that improve and enhance wildlife habitat as a part of the overall operation of the agricultural enterprise, including invasive species control?	Yes <input type="radio"/> or No <input type="radio"/>
